

Drills and Chisels Chart

PRODUCT		FEATURES	AVAILABLE SIZES	Reinforced concrete	Concrete	Masonry	Calcium silicate brick	Brick	Granite	Marble	Iron	Steel	Wall tiles	Roof tiles	BENEFITS
	MHP-T Hammer Drill Bit, SDS-Plus, 3-cutter		ø 5-16 mm WL: 50-550 mm								-	-	-	-	<ul style="list-style-type: none"> Hammer drilling Particularly powerful and rugged multi-cutter Optimum extraction of drill dust promotes high drilling performance Recessed carbide tip for extreme resilience in reinforcement steel
	MHP-Y Hammer Drill Bit, SDS-Plus, Y-cutter		ø 18-20 mm WL: 200-550 mm								-	-	-	-	<ul style="list-style-type: none"> Hammer drilling Particularly powerful and rugged multi-cutter Optimum extraction of drill dust promotes high drilling performance Recessed carbide tip for extreme resilience in reinforcement steel
	MHP-D Hammer Drill Bit, SDS-Plus, 2-cutter		ø 4-26 mm WL: 50-950 mm								-	-	-	-	<ul style="list-style-type: none"> Hammer drilling Optimum extraction of drill dust promotes high drilling performance Recessed carbide tip for extreme resilience in reinforcement steel
	MHX-T Hammer Drill Bit, SDS-Max, 3-cutter		ø 12-16 mm WL: 200-800 mm								-	-	-	-	<ul style="list-style-type: none"> Hammer drilling Particularly powerful and rugged multi-cutter Optimum extraction of drill dust promotes high drilling performance Recessed carbide tip for extreme resilience in reinforcement steel
	MHX-Y Hammer Drill Bit, SDS-Max, Y-cutter		ø 18-45 mm WL: 200-1200 mm								-	-	-	-	<ul style="list-style-type: none"> Hammer drilling Particularly powerful and rugged multi-cutter Optimum extraction of drill dust promotes high drilling performance Recessed carbide tip for extreme resilience in reinforcement steel
	MHP-Clean Hollow Drill Bit, SDS-Plus, 2-cutter		ø 8-18 mm WL: 150-250 mm								-	-	-	-	<ul style="list-style-type: none"> Hammer drilling Innovative 2-in-1 drill bit: drilling and dust extraction in a single step Particularly suitable for setting chemical anchors Saves cleaning of the surroundings and drill hole
	MHX-Clean Hollow Drill Bit, SDS-Max, Y-cutter		ø 18-35 mm WL: 400 mm								-	-	-	-	<ul style="list-style-type: none"> Hammer drilling Innovative 2-in-1 drill bit: drilling and dust extraction in a single step Particularly suitable for setting chemical anchors Saves cleaning of the surroundings and drill hole
	MSZ Drill Bit, cylindrical		ø 3-20 mm WL: 45-350 mm	-							-	-	-	-	<ul style="list-style-type: none"> Impact drilling High durability even in the hardest materials Fast drilling speed
	MDZ Allmat Drill Bit, cylindrical		ø 5-14 mm WL: 50-310 mm	-							-	-			<ul style="list-style-type: none"> Rotary drilling, impact drilling Performant, resistant and accurate Easy drilling also in smooth and hard surfaces
	MMP SDS-Plus Chisel		L: 250 mm	-							-	-	-	-	<ul style="list-style-type: none"> For all popular applications Effortless chiseling and faster penetration Anti-lock
	MMX SDS-Max Chisel		L: 175-600 mm	-							-	-	-	-	<ul style="list-style-type: none"> For the toughest tasks Effortless chiseling and faster penetration Anti-lock
	HSS Drill Bit, cylindrical		ø 2,5-16 mm WL: 30-120 mm	-	-	-	-	-	-	-			-	-	<ul style="list-style-type: none"> For metal solutions Ideal for unalloyed steels Long life
	HSS-D Drill Bit, double sided, cylindrical		ø 3,2-5,2 mm WL: 11-17 mm	-	-	-	-	-	-	-			-	-	<ul style="list-style-type: none"> Quick change possible due to double end For metal solutions Ideal for unalloyed steels
	MFB Diamond Drill Bit, M14		ø 6-20 mm WL: 12 mm	-	-	-	-	-	-	-	-	-			<ul style="list-style-type: none"> Easy drilling also in smooth and hard surfaces Clean and accurate holes Simple and speedy working
