

uvex Head Protection System

Head Protection

uvex u-cap sport vent

uvex u-cap sport vent is an innovative baseball bump cap in accordance with European Norm EN812*, providing the ideal bump protection for working in environments where head protection is not compulsory.

*Bump caps should be used to protect against accidental scraping and bumping of the head NOT protection against falling objects.

uvex Point of Difference	Benefits
Integrated shock-absorbing elements with honeycomb structure	The innovative design ensures complete protection in accordance with EN812
Armadillo design of inner shell	Provides flexibility and ergonomically adapts to different shapes and sizes
Mesh fabric section	Enables improved ventilation to the head
Extended cut out near the ears	Makes it easier to wear ear muffs
Continuous size adjustment	Quick and easy adjustment using the Velcro fastener
Removable airy mesh liner	Provides comfortable and hygienic option that can be machine washed
Traditional brim and short brim options	Short brim option is ideal for workers who need unimpeded upward vision
Traditional baseball cap outer	Looks less like a piece of PPE for higher wearer acceptance
