BACKDRAFT FIRE FIGHTING GOGGLE

ADVANCED TECHNOLOGY FOR FIRE FIGHTING

MODEL	VERSIONS	REFERENCES	LENS MARKING	FRAME MARKING	COATINGS
BACKDRAFT	 Clear	BACEPSI	IOMH & 	AS/NZS 1337.1.2010	Anti-scratch/anti-fog ()
	 CSP	BACECSP	I1MH & 	AS/NZS 1337.1.2010	Anti-scratch/anti-fog ()

LENS MARKING

. Platinum is a permanent coating applied on both sides of the lens that gives a high resistance to scratching (1.4 cd / m²) and to the most aggressive chemicals and delays the onset of fogging for two minutes, as per the testing requirements of EN166.

- I. The letter 'I' signifies 'Medium Impact' approval.
- O. The letter 'O' signifies that the product has been approved for the use both outdoors and indoors, and the terminology used by Australian standards is 'outdoor un-tinted'. This marking appears on all clear, amber and contrast lenses.
- M. The letter 'M' signifies protection against hot solids.
- H. The letter 'H' signifies protection against high temperature.

Ocular lens category:

- O. Range of luminous transmittance 80–100% (Clear).
- 1. Range of luminous transmittance 43–88% (CSP).

TECHNOLOGIES

CSP

This innovative coating is an effective solution for all activities that alternate exposure to bright light and low light, while also being suitable for extreme hot and cold temperature environments.

CSP is also combined with the exclusive PLATINUM® coating that effectively combats fogging.

PLATINUM

The new exclusive scratch and fog resistant PLATINUM® coating guarantees even more safety, reliability and comfort. Washable (water and soap), this permanent coating applied on both sides of the lens makes it highly scratch resistant and effectively delays the appearance of fogging.

FRAME MARKING

AS/NZS 1337.1.2010: Tested and approved to. AS/NZS 1337.1.2010 - Medium Impact & chemical splash protection

CLEANING AND STORAGE

CLEANING: The lenses should be cleaned regularly. Bollé Safety recommends only using the B-clean lens cleaning system.

MAINTENANCE: Pitted, scratched or damaged lenses must be replaced by replacing the complete product. If the frame is damaged also replace the complete product. After each use it is recommended to keep the spectacles or goggles in a microfiber pouch or rigid case.

STORAGE: All products must be stored in a dry and clean environment.

CHARACTERISTICS	
LENSES	PC - inside: 1,4 mm PC - outside: 2.2 mm curve 7C
