

BLUE BLOCKER

SHIELDING YOUR VISION AGAINST BLUE LIGHT

Blue Blocker lens technology offers a great **protection against harmful blue light** of all kinds (digital screens, LED lighting) to reduce its impact on health. Counterpart of our B-Zen lens technology, Blue Blocker is offered in **plano lenses** to improve visual comfort. Available on a **wide range of frames** (with and without side shields), this technology is **embedded in a 2mm thick PC lenses** which provides a greater durability as well as a **protection against impact** as rated by the AS/NZS 1337.1 standard.

BLUE BLOCKER

SHIELDING YOUR VISION AGAINST BLUE LIGHT

TECHNOLOGIES

BLUE BLOCKER

This clear blue light filter blocks harmful blue light. Embedded within the PC lens, this technology is more resistant than other blue light coatings. Blue Blocker lens technology enhances the wearer's perception of contrast and colours, without tinting the vision. Moulded in 2mm PC lenses, it provides all the protection offered by polycarbonate, and more. Specifically designed for users without correction needs (see B-ZEN technology for prescription eyewear), Blue Blocker is available on various products (curve 4 to 8) to fit anyone's needs.

LENS MARKING

Optical class symbols:

O. The letter 'O' signifies that the product has been approved for the use both outdoors and indoors, and the terminology used by Australian standards is 'outdoor un-tinted'. This marking appears on all clear lenses.

Ocular lens category:

O. Range of luminous transmittance 80–100% (Clear)

Mechanical strength symbols:

S. Low impact, resists a 6mm steel ball at 12 m/s

I. Medium impact, resists a 6mm steel ball at 45 m/s
Maximum protection for glasses.

Others symbols:

☞ Manufacturer name

FRAME MARKING

AS/NZS1337.1: Tested and approved to AS/NZS 1337.1:2010 for low or medium impact protection (depending on the model).

Bollé Safety product approval certificate available upon request.

CLEANING AND STORAGE

CLEANING: The lenses should be cleaned regularly. Bollé Safety recommends only using the B-clean lens cleaning system. **A microfibre pouch is provided with every product to that effect.**

MAINTENANCE: Pitted, scratched or damaged lenses must be replaced by replacing the complete product. If the frame is damaged also replace the complete product. After each use it is recommended to keep the spectacles in the **rigid case provided with the product.**

STORAGE: All products must be stored in a dry and clean environment.
