20 YEARS (LIMITED) WARRANTY

Premium range stainless steel cables ties are the only ties in the industry that are covered by 20 years (limited) warranty.*

CABAC's Stainless Steel Cable Ties are a quick, effective way of securing cables that are in a hostile environment.

They have a unique ball bearing locking mechanism that allows the tie to be quickly and easily installed, but not undone.

They install much quicker than traditional strapping systems.

The heavy duty ties have an off-set tip to speed insertion of the tie.

The ties are made from 316 non-magnetic stainless steel.

*See CABAC website for full terms and conditions on warranty terms.

In support of our policy of continuous product improvement we reserve the right to change materials and specifications without notice. Drawings, where used, are not to scale. All dimensions are in millimetres and sizes given are approximate. Where possible, technical MSDS data sheets are made available on the website. All products should be installed and used in accordance with manufacturer's instructions provided. Warning: products may be the subject of registered designs and patents. Refer to website for terms and conditions on warranty.
