H181 -Annular Cutters - 50mm -Sutton Tools

Sutton Tools Annular Cutters are an industrial quality cutting solution for use with magnetic base drilling machines. Suitable for cutting steel, stainless steel and other ferrous metals along with aluminium and other non-ferrous metals.

Features:

- Made from M2 High Speed Steel (HSS) - Offering the best combination of strength, heat and wear resistance
- Titanium Aluminium Nitride (TiAlN) Coated - For increased surface hardness and longer tool life
- Universal Shank - Fits all magnetic base drilling machines

Range:

Item #	Diameter d1 (mm)	Length l1 (mm)	Thread
